Overview of Sonic Solutions

Wyoming-based VoIP wholesale carrier, operating under FCC license as a 499A filer, specializing in global termination of voice traffic.

Purpose of This Communication

This document is a Deep-dive into Sonic's corporate structure, technological infrastructure, business model, and strategic differentiators.

Corporate History & Structure

Founded by Emery Grohregin in 2020, leveraging his extensive background as a Vice President for various PTTs and Carriers in the Telecom Industry.

While headquartered in Cheyenne, Wyoming, USA, our network is distributed through cloud deployments, a network of Genband/Nextone softswitches and Hypermedia GSM Gateways accross the world.

Emery Grohregin

CEO & Founder of Sonic Solutions. Former VP at Sprint, Xura, and Comverse. With over 20 years in telecom, he has led large-scale infrastructure projects and played a key role in advancing VoIP technologies.

Amran Patel

Chief Technical Advisor. Graduate of IIT Madras with expertise in Computer Science and telecom technologies. He specializes in cloud-based telecom solutions, VoIP infrastructure, and scalable network systems.

Service Portfolio & Technical Infrastructure

Sonic's core business is wholesale termination of voice minutes globally. Key features include per-breakout billing, A-Z Coverage, and three distinct price decks (Gold, Diamond, CLI Direct). Least Cost Routing optimizes cost and quality for client calls through primary route selection and failover/overflow. Network and data centers leverage a high-capacity backbone and Nextone technology. Operational NOCs located in New York, USA, and India ensure 24/7/365 oversight.

Primelink
Billing

The Primelink Billing System

Real-Time Billing

Our proprietary real-time Primelink System, built on Nextone/Genband, enables buyers and sellers to monitor traffic, billing, and CDRs instantly, ensuring flawless reconciliation and seamless transactions.

Auto Top-Up - May 2025

Premiering in May 2025, this Paypal top-up feature will allow us to onboard smaller customers who may not have the ideal credit score by enabling automatic balance refills, ensuring continuous service while expanding our market reach.

Business Model

High-Level Financials

Low overhead approach since inception. Gross profit positive since first year of operation. On tracks for \$1MM+ profit for 2025.

Pay Terms & Margins

Supplier terms: Net 30.
Client terms: Net 30.
Maintains a consistent 7% gross margin.
12 Customers
5 Suppliers.

Minimal Risk

No depreciable inventory, instant reconciliation, real-time ultra precise billing and immediate usage visibility.

Technical Excellence & Quality Assurance

Nextone/Genban Switches

Includes unified ledger, performance monitoring, manual oversight, Least Cost Routing and more, for one of the most robust networks around.

Quality Tiers

CLI Routes for higher quality. Non-CLI Routes for cost advantages. Hybrid models available. Try our Least Cost Routing option for best price/quality.

Growth Strategy & Vision

Market Expansion

Secured partnerships with major PTTs.
Plans to expand into emerging markets.

Technology Upgrades

Investment in hardware and software.
Scalable cloud infrastructure.

Payment Terms

Extending faster terms to sellers will be our revenue growth strategy for 2025.

Corporate Culture & Values

Innovation

Continuous innovation from custom Hypermedia gateway routing to modern Nextone-based solutions.

Reliability

24/7/365 technical support and daily ledger verification.

Integrity

Long-standing relationships built on trust and transparency.

Quick Recap

Summary of Key Strengths

Lean, cloud-based operation. Three distinct pricing tiers. State-of-the-art Nextone technology.

Leadership and Vision for Future Growth

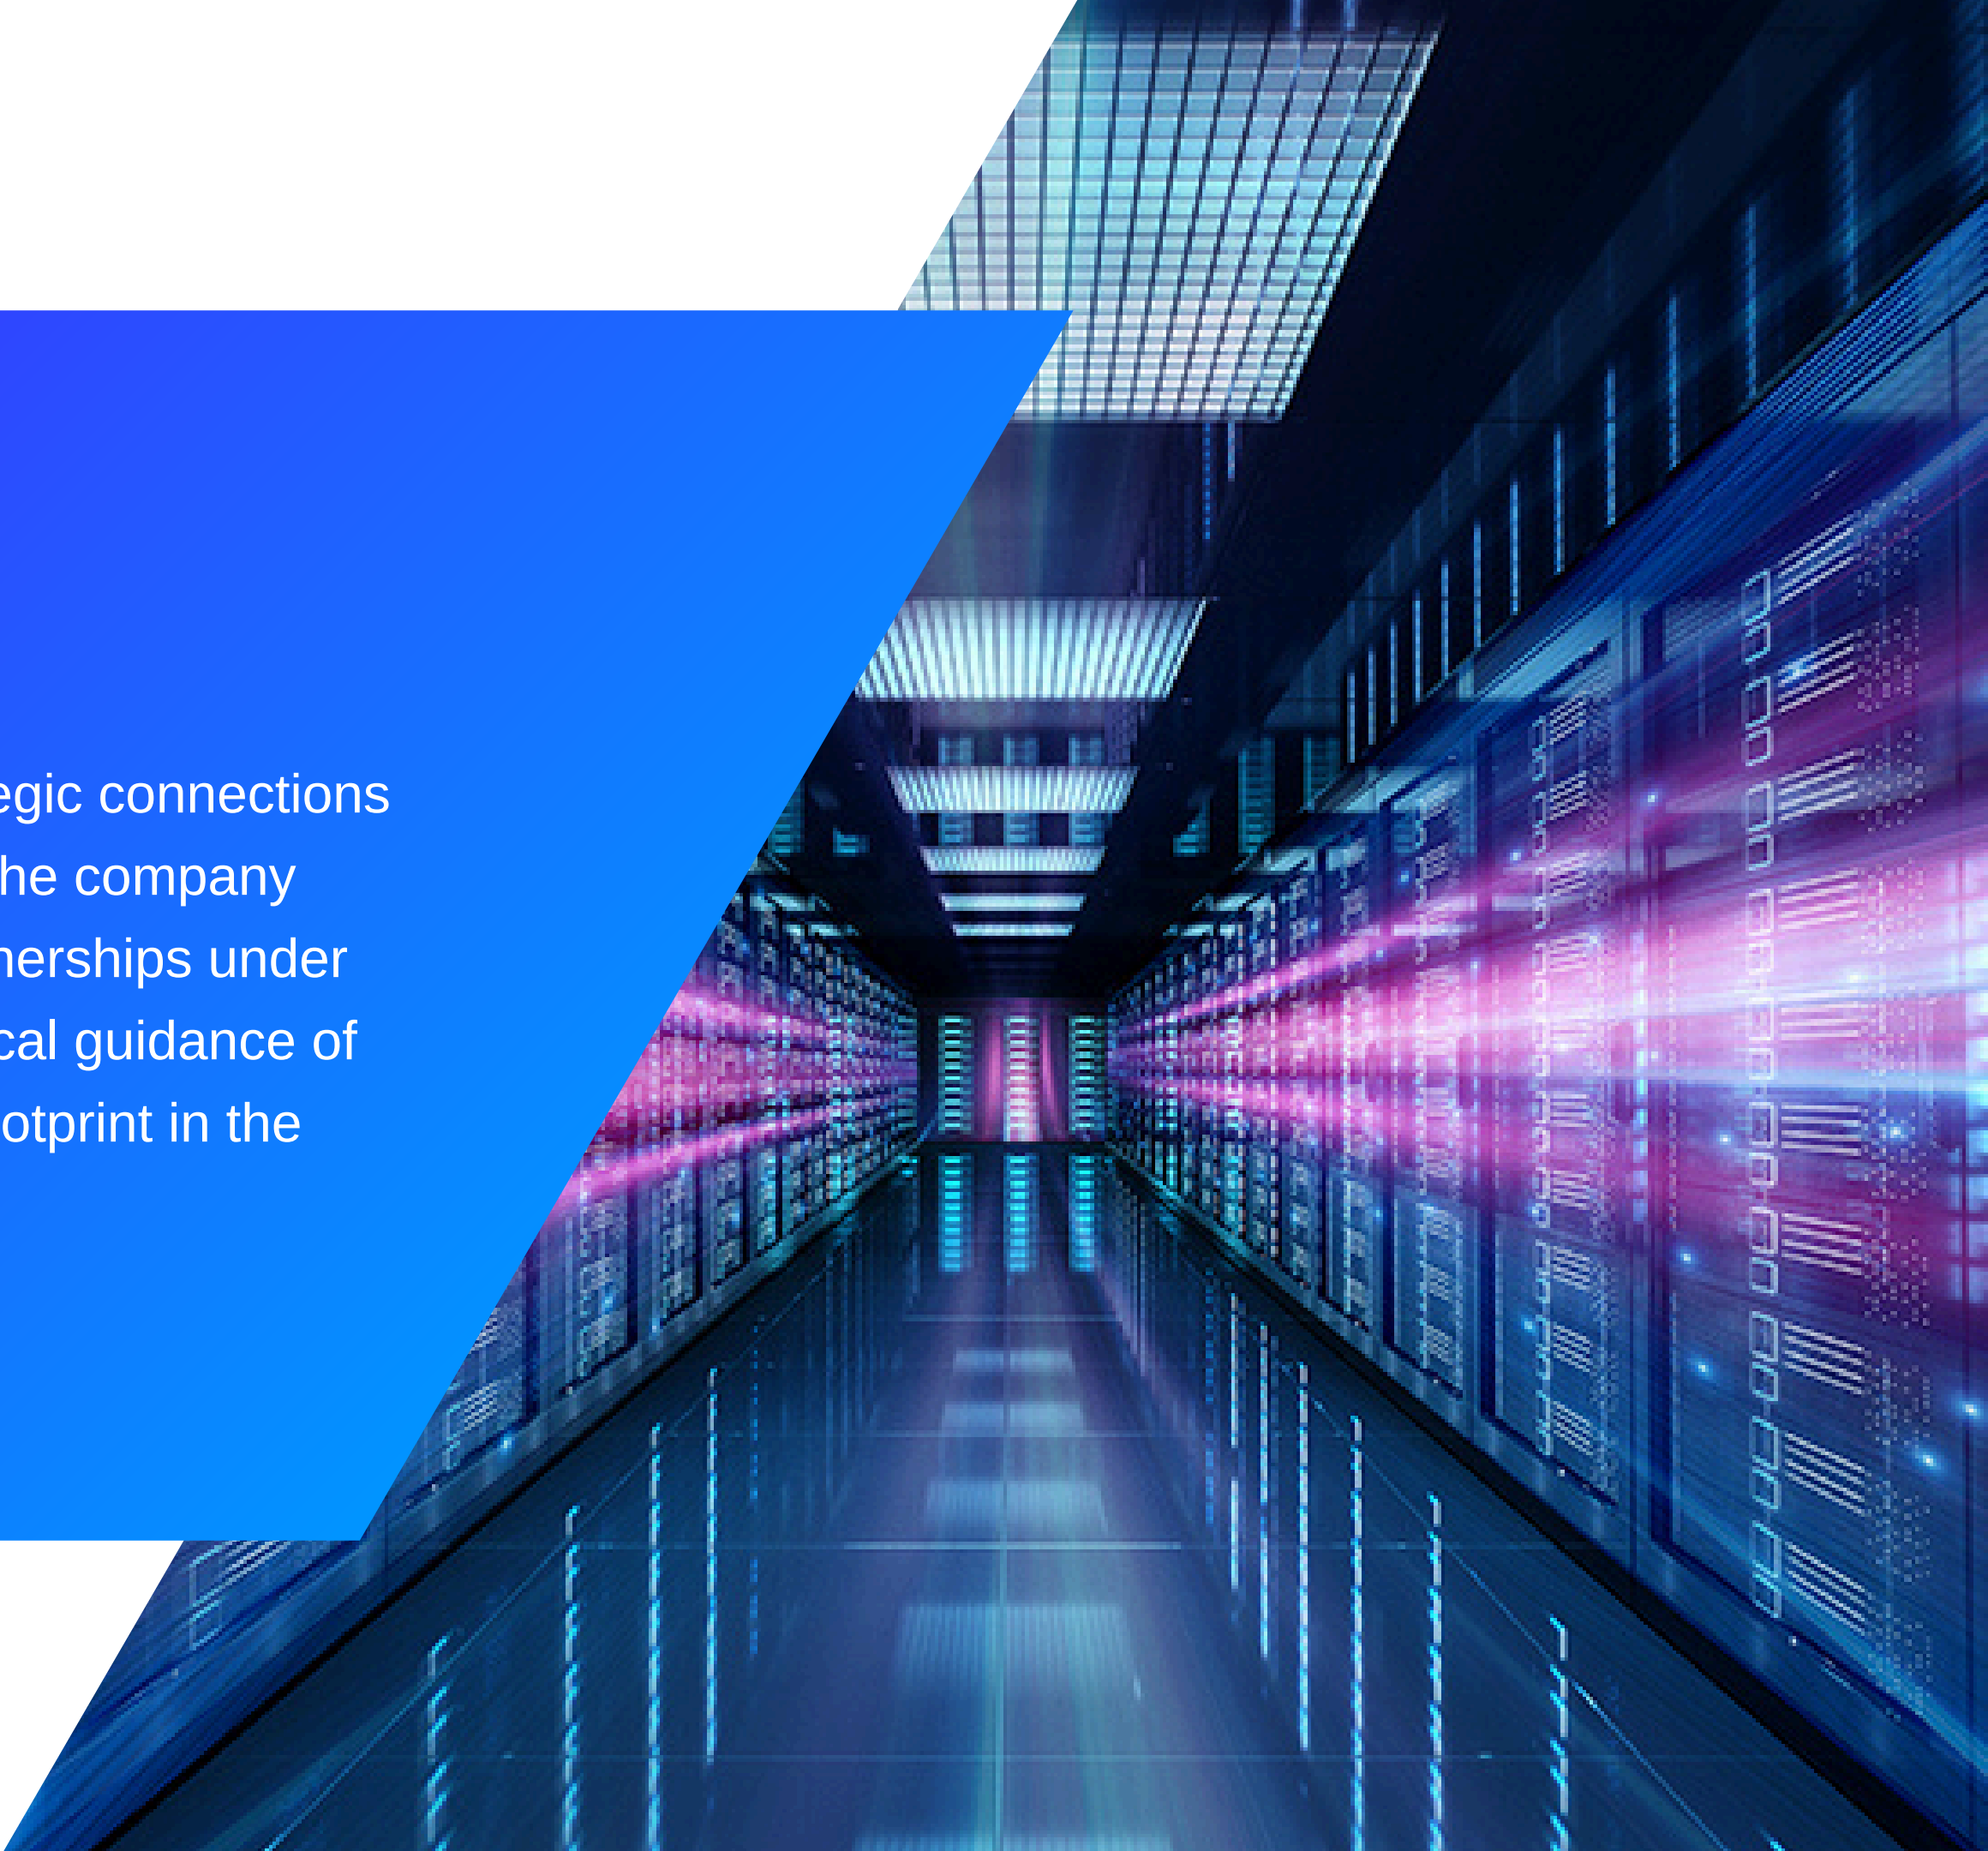

Led by Emery Grohregin and Amran Patel, poised for continued growth.

Contact Information

Global NOCs or the Wyoming-based headquarters.

Final Words

Sonic Solutions™ effectively combines strategic connections with licensed operators and real-time billing. The company maintains profitability and strong industry partnerships under the leadership of Emery Grohregin and technical guidance of Amran Patel. The company is expanding its footprint in the VoIP landscape.
